

The slide features a decorative vertical bar on the left with green and blue segments. The background is white with various abstract shapes: a large green circle in the top right, a dark blue star, a green circle with a white checkmark, a dark blue oval, a green circle with a white dollar sign, and a dark blue circle. There are also curved lines in green and blue.

BAG

Semester Budgeting

By: Eva Daves

About Bag

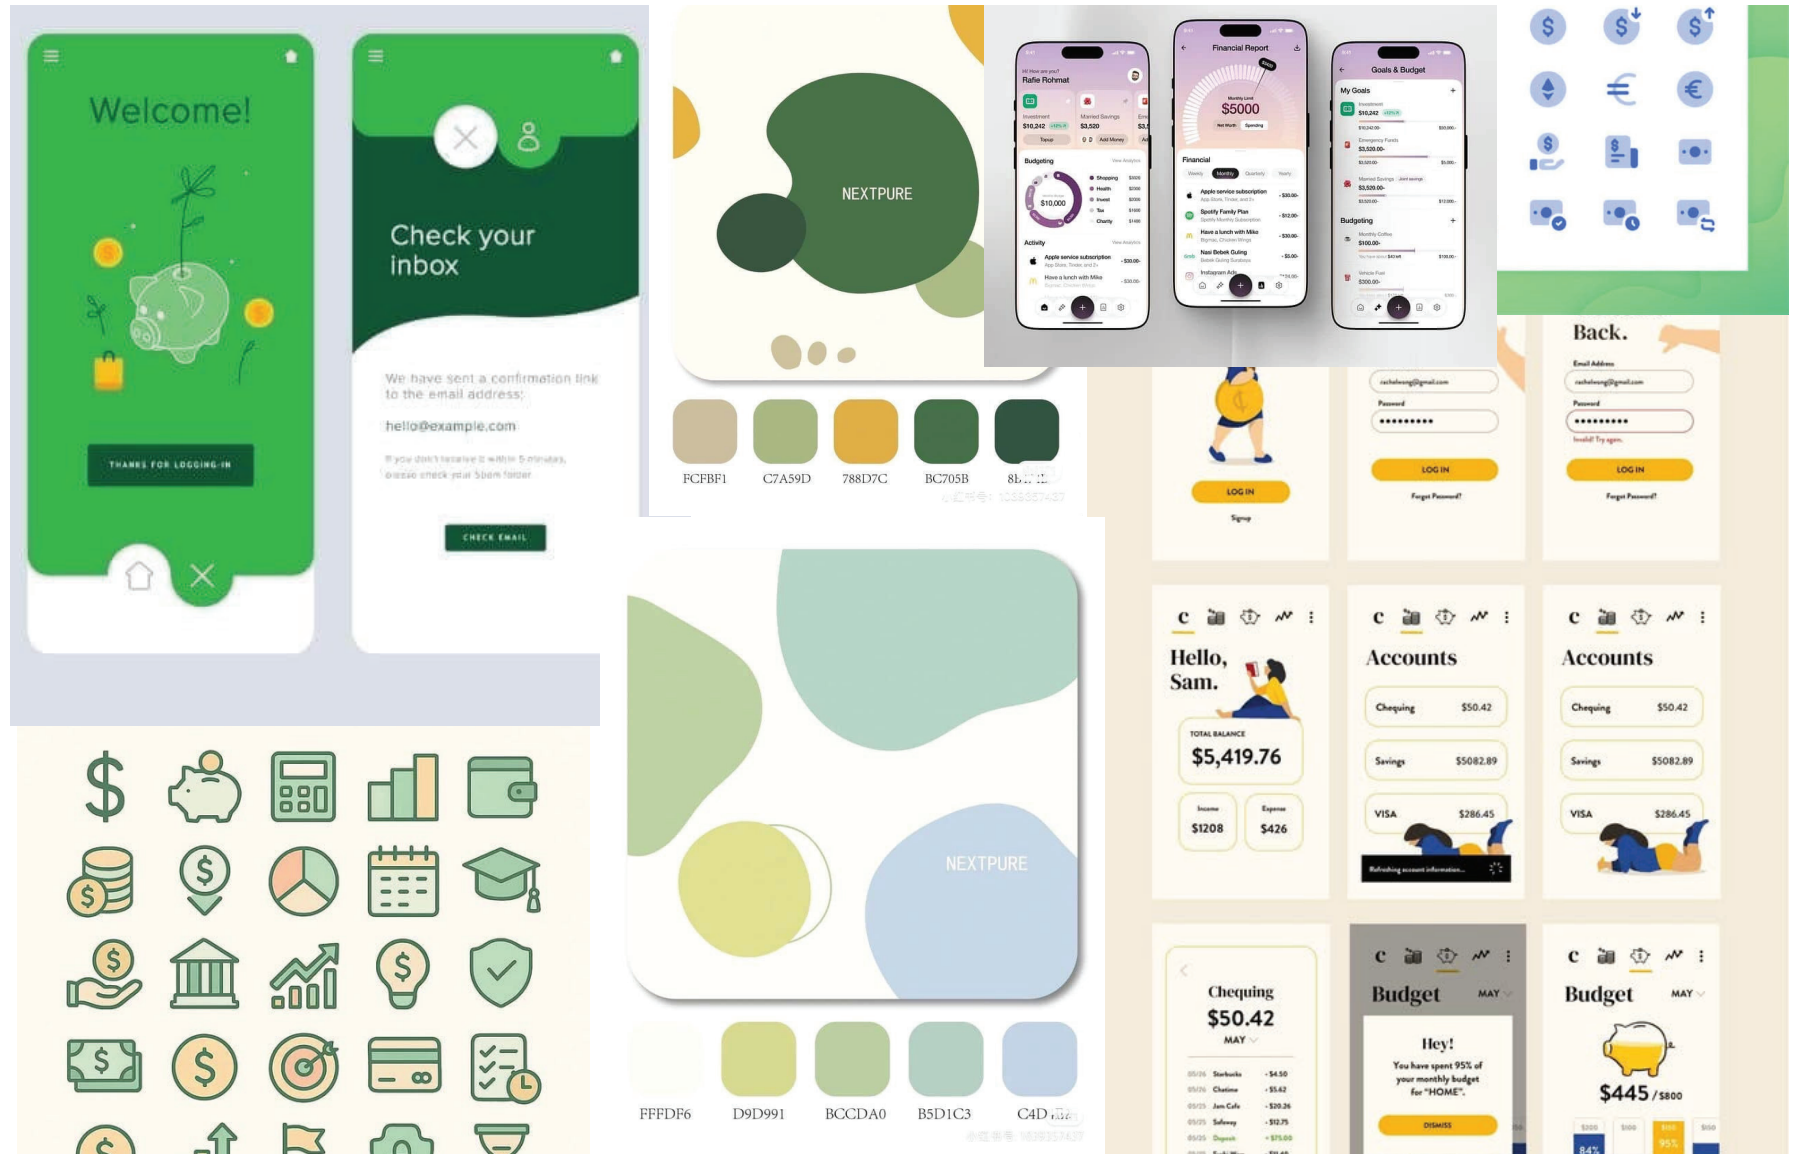

Bag is college financial management app helping students track the Complete financial picture (aid, work, gigs, parents, expenses) with Semester-based budgeting for college life realities.

College Financial Management Built for Real Student Life

Official Product Launch

A Semester-Based Financial Survival System Made For College Student's Reality.

[DOWNLOAD NOW](#)

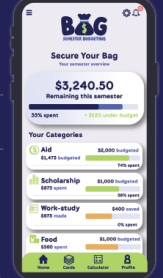

Secure Your Bag. Own Your Independence.

About Bag

Managing money as a college student is hard. Financial aid comes in lump sums, gigs and part-time jobs pay inconsistently, and expenses always change.

- ✓ Tracks lump-sum financial aid
- ✓ Plans budgets by semester
- ✓ Alerts over spending early

More than just a budgeting app, BAG gives you a financial system that makes sense for college.

The Problem

Most students **run out of aid** before midterms.

Students receive financial aid and feel temporarily secure. Within a few weeks, much of that money is gone. Textbooks, food, social spending, and unexpected cost add up quickly. By the middle of the semester many students are stressed, confused, or forced to take additional loans.

- Most budgeting tools assume steady monthly income and predictable, even expenses.
- College finances are different:
 - ✓ Lump-sum financial aid
 - ✓ Irregular income from jobs and gigs
 - ✓ High upfront expenses like textbooks

Students need a system built for **semesters - not months.**

The Opportunity

Students between the ages of 18-22 are entering financial independence for the first time. They want to be responsible but often lack structure to do so.

They are managing money from multiple sources including:

- ✓ Financial aid
- ✓ Part-time & gig work
- ✓ Scholarships
- ✓ Parent contributions

What they want is simple:

- ✓ Make financial aid last the semester
- ✓ Know how much they can safely spend
- ✓ Avoid unexpectedly running out of money

Bag was built to meet these needs.

The Solution

Bag is complete college financial management system combining physical and digital tools

- Companion mobile app
- Multi-source spending card

Together, these tools help students understand their entire financial picture and make better decisions in real.

No more guessing. No more surprises.

Core Innovation

Semester-Based Budgeting for College Students

College finances don't follow monthly cycles - so we built a system that organizes money across the entire semester.

How It Works

- Aid Deposited Upfront**
Lump-sum financial aid
- 8-Week / 16-Week Planning**
Auto-split into spending periods
- Track Spending in Real-Time**
See balances for each period

Students Get Real-Time Insights

- Budget Win**
You stayed under your total budget this week.
- Low Balance**
Your spending balance is below \$50.
- Payment Reminder**
Your next payment is due in 3 days.
- Payment Failed**
We couldn't process your phone payment.

Parent Visibility Without Control

Money can be a major source of tension between students and parents. Parents worry, while students want independence. Bag bridges this gap with a parent. This creates transparency while preserving autonomy.

Parents can see high-level progress such as whether their student is on track financially, but they cannot control spending or see every purchase.
