

FitCore

By: Jesus Castro-Perez

What is about FitCore

Most fitness trackers focus on surface-level activity metrics that fail to reflect meaningful physical progress. When clients rely only on scale weight or step counts, true improvements in strength, muscle gain, and recovery often go unnoticed.

FitCore

Logo Sketch

This sketch explores the FitCore name as a foundational wordmark, focusing on structure rather than style. The simplicity allows the brand to feel stable and strong while leaving room for future integration of fitness and technology elements.

The header features the FitCore logo on the left, navigation links (HOME, PROGRAMS, PRODUCTS, BLOG, CONTACT) in the center, and a LOG IN/SIGN UP button with social media icons on the right. The hero section has a large heading "PROGRAMS" and a main headline "UNLEASH YOUR POTENTIAL ONE STEP AT A TIME." Below this is a sub-headline: "Built for athletes and everyday movers, FitCore tracks your heart rate, pace, and performance in real time so you always know how your body is responding." A "GET STARTED HERE" button is positioned below the text. The background image shows a woman running while wearing a FitCore tracking device on her arm.

This block displays two more mobile app screens. The left screen shows "Your Body Composition" with a circular progress indicator for "Jance Martin Activity Record" and a "Great Job!" message for completing Day 7 of training. The right screen shows "What's New" with a "Boosting Performance With Breath Work" article and a "Start Now" button. Both screens include a "Your Progress" and "Last Exercises" section at the bottom.
