Stay on track. Stay ahead.

Stay organized. Stay ahead.

Less stress. More progress.

Plan fast. Study faster.

TONE/PERSONALITY

Your collegiate success matters to you and we are so proud of that! StudyStream began after college student Maya Chen, who nearly failed senior year despite being a strong student. During finals week, she forgot a major group presentation worth 25% of her grade--not because of coursework difficulty, but from managine five classes across seven Canvas pages, twelve email threads, four GroupMe chats, nine Google Docs, three professor websites, and two lost syllabi.

Students today are busy with coursework, extracurricular activities, employment and personal time. With busy jam packed schedules comes the potential for missed deadlines, overlapping schedules and mental clutter and disorganization. StudyStream aims to elevate your success as a one stop shop to keep you organize and a step ahead of the rest.

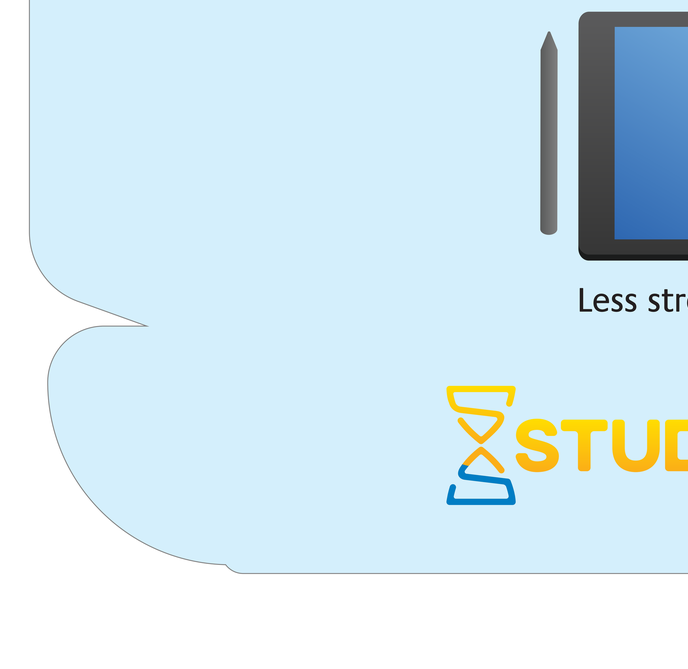
Task Management E-Ink Display



Less stress. More success

STUDYSTREAM

Task Management E-Ink Display

StudyStream is a large-format 18 x 24" E-Ink display tablet designed to help college students stay organized, focused, and on track. With its paper-like, glare-free screen, it delivers a distraction-free viewing experience that's easy on the eyes—perfect for dorm rooms, study spaces, or shared apartments.

Designed to be wall-mounted, StudyStream functions like a smart academic command center. Simply mount it in your workspace to transform any wall into a dynamic planning hub. Its built-in calendar app is tailored specifically for students, allowing you to track assignments, exams, project milestones, and study goals at a glance. Sync your class schedule, color-code subjects, and monitor your progress throughout the semester—all in one clear, always-visible display.

With its minimalist interface, low power consumption, and always-on display, StudyStream keeps your priorities front and center—so you can spend less time organizing and more time achieving.

Maintenance and Care of your Study Stream 12

Your Success Matters

Hey friend! StudyStream is here to help. You be the best student you can be. Between coursework, employment, and family life, it can become overwhelming to keep track of it all. Many students use a number of different platforms to keep track of it all—and that can even add further stress. Now, you have a task management system that combines the function of many platforms into one.

One Place to See Everything!

StudyStream's e-ink display offers an interactive physical display screen that is always visible at home and a mobile/web app that you can use on the go. Your time is precious. Make the best use of your time with the best task management system—StudyStream.

Core Features of Your StudyStream

StudyStream offers so much more than your typical productivity application and calendars. StudyStream's hybrid physical-digital task management system delivers an 18×24" interactive display board with ditigal mobile and web applications.

- Why is that so important?
  StudyStream is **always** visible at home, while being accessible on the go. You don't have to remember to check it like traditional applications. The interactive display is always visible.

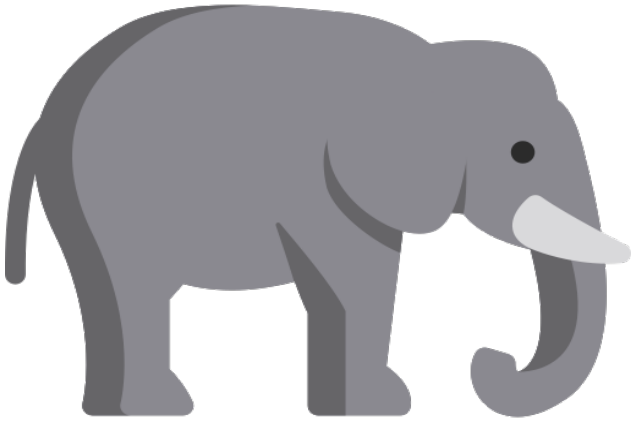
- The interactive display is touch screen with a stylus. Our display screen is no-glare and readable in any lighting. Syncing with apps are visible on your display.

- StudyStream has smart-colored pins. The color-coded magnetic pins can be used to represent different classes on the display board. The pins enhance visual organization and boost tactile interaction. The pins are reusable.

Task Breakdown

You have been assigned a new project, assignment and/or task. Yet you feel paralyzed on how to break the tasks down into smaller steps—and that can be overwhelming. StudyStream gives you the tools to break down projects into manageable steps and estimate the time for each step. The best way to “eat an elephant” is one bite at a time.

Break it down. See Your Progress. Achieve Your Goal.



Time Blocking

There is no time to waste as a motivated student putting his/her best foot forward. Planning your schedule with time blocking boosts productivity. Scheduling specific tasks, that integrates with your calendar saves time and keeps schedules error free.

Conflict Detection

In our busy lives, some people at times may be jam-packed with projects and tasks. For example, consider the end of the semester when you have multiple exams across classes. StudyStream's conflict direction features give visual workload warnings that are color-coded by the week. Green is used for a more manageable schedule. Yellow is used for a heavier workload. Red is used to show a potential crisis as a result of an intensive workload. The conflict detection system gives you the tools to forsee potential heavy workload and encourages planning to redistribute the workload.

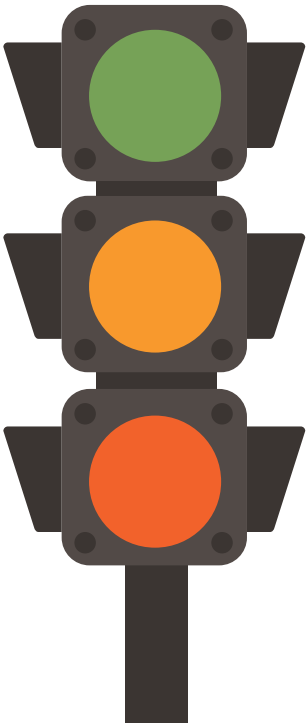
28	29	30	31			



Group Project Collaboration

StudyStream allows you to collaborate and share with others. StudyStream allows a shared task lists with visible ownership. Each member of a group can view, edit, add and delete tasks in a list.

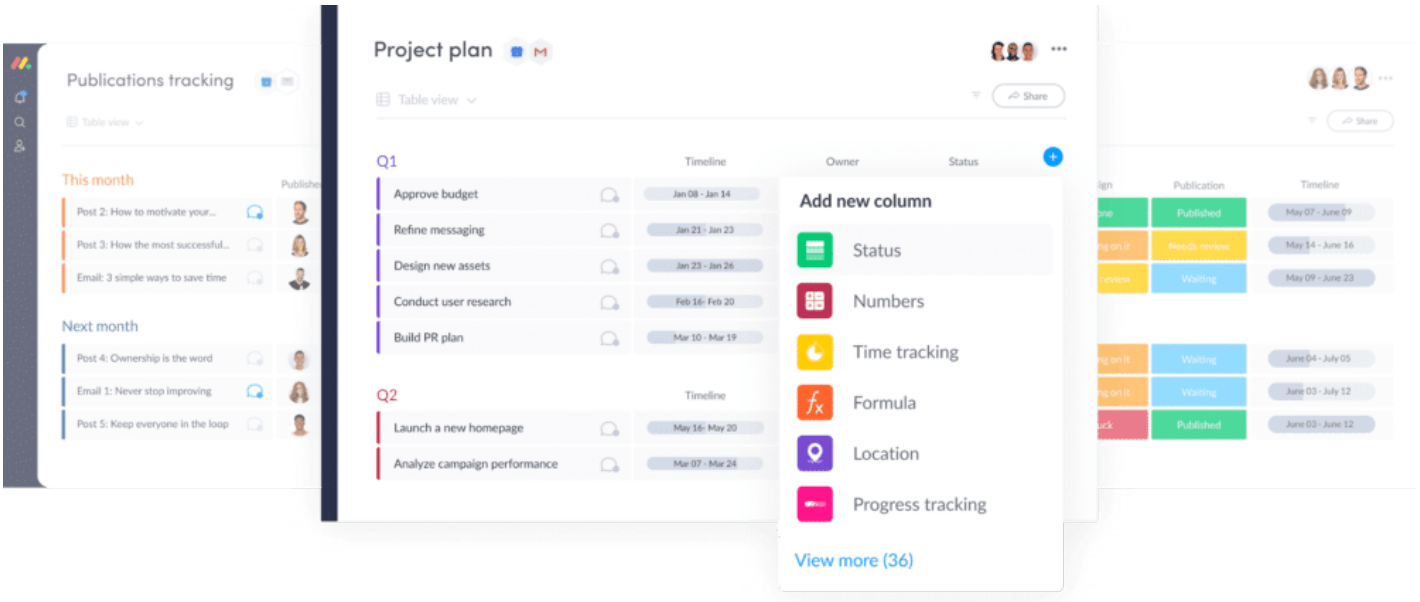
Tips on How to Use StudyStream

Hey friend! One of the most important benefits of StudyStream is the always visible e-ink display. Be sure to set it up in a location that you utilize daily. When you see it, you will use it.

StudyStream offers real time synchronization with mobile and web applications. This allows precise scheduling and task management. Our mobile app allows you to scan your syllabus to extract due dates directly into your calendar.

Stay organized, stay ahead.

StudyStream offers multiple view modes to visualize your schedule. You can access your schedule by daily mode, weekly mode, monthly-calendar mode, by class mode, group projects and time-block schedules.



Maintenence and Care of Your StudyStream Display Tablet

StudyStream will be your new best friend to help you organize life. Since StudyStream will take care of you, make sure you take care of your StudyStream.

- Care for your e-ink display screen by using a soft micro-fiber cloth to remove dust and smudges.
- **DO NOT** use liquids, alcohol and other harsh chemicals.
- Never spray liquid directly onto the screen.
- Avoid extreme hot or cold temperatures, do not leave your device in sunlight.
